EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert W. Gutenkauf on 28 September 2004.

2. The application has been amended as follows:

In claim 33 on lines 8 and 9, "said flotation foam layer...and attached to it." has been deleted and --a third layer comprised as a flotation foam layer beneath the second layer and attached to it; said flotation foam layer comprised of a plurality of parallel spaced apart foam strips.-- inserted therefor.

Claim 34 has been reinstated and reads as follows --The lagoon cover of claim 31 wherein: the first layer is formed of a geotextile material.--.

3. The following is an examiner's statement of reasons for allowance: While the primary reference to Vogel et al. (U.S. Patent No. 6,136,194 A) discloses a cover (36A, 36B) capable of permitting gases to escape to the atmosphere (col. 3, lines 56 through 61), it does not teach a porous geotextile. Gases are released between the edges of the expressly taught geomembranes (col. 5, lines 4 through 11).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
